India is the most unreached nation on earth.

India is home to over 400 million people who have never heard the name of Jesus—that’s 25% of the world’s unreached!

Mission India partners with India’s Christians, who are eager and passionate to share their faith. We provide them with training, accountability, and tools—including Bibles, Bible study booklets, textbooks about church planting, and Children’s Bible Club materials.

Church Planters:
- Complete one year of combined classroom training and supervised fieldwork
- Often open doors in communities through Children’s Bible Clubs
- Are eager to start at least 2 churches

$2,500 launches a Church Planter on a lifetime of mission work. After training is done, Church Planters continue to disciple new believers in their area, building strong communities of faith that continue to grow and multiply!
