Why focus our ministry on India?

One simple reason. Actually, 400+ million reasons! More than 400 million people in India have never heard the name of Jesus, and that makes India the largest unreached nation on earth! Trapped in illiteracy, poverty, superstition, and idol worship, many of India’s people see no hope for a brighter future.

Together with our indigenous ministry partners, Mission India is transforming India through:

- Children’s Bible Clubs
- Adult Literacy Classes
- Church Planter Training

And amazing things are happening! Every year, new believers and churches sprout out of all three ministry programs. These vibrant, reproducing churches are the key to saturating India with the Gospel.
